About Me

I am a highly motivated Cybersecurity Professional with a primary focus on **Red Teaming**, **Penetration Testing** and **Bug Bounty**. I bring a unique "Purple Team" perspective, leveraging a stable background in Blue Teaming and Linux Hardening to identify and exploit vulnerabilities effectively. Proficient in automating security workflows with Python and Bash and deeply experienced in System Administration. Besides, I have skills in HTML, CSS, C, C++, Python, and Bash. I am a consistent CTF competitor; until now, I have participated in over **100+ CTFs** in International, National, and Inter & Intra-University categories. I am the Founder & Team Lead of Integrated Hawkens, a prominent CTF team in Bangladesh. Under my leadership and through our collective cooperation, the team has gained significant recognition in Bangladesh. I hold the industry-recognized **eJPT**, **CPENT**, **LPT (Master)** certification. Besides, I have **KodeKloud Linux - Level 1**, **LFS101** in System Administration and numerous CTF certifications.

Experience

Practical Experience

Infrastructure & Server Management | Integrated Hawkens Initial CTF 2026 **Jan 2026**

- Engineered full-stack server infrastructure for a high-traffic CTF: **Nginx** reverse proxy, **UFW/IPTables** network hardening, **Fail2Ban** for SSH brute-force/DDoS mitigation, and **Cloudflare** edge security.
- Built centralized log management and performed **SIEM**-based log analysis for audit trail integrity.

Red Teaming & Adversary Simulation **2025**

- Developed custom Python-based reverse-shell payloads and a VPS-based C2 environment using **Cobalt Strike** and **Metasploit** to emulate APT behavior.
- Researched payload obfuscation techniques to bypass EDR/AV detection.

Security Information & Event Management (SIEM) **Jan 2025 – Present**

- Configured **Splunk** and **Kibana** dashboards and **Snort** IDS rules to monitor traffic and detect intrusions.
- Performed root-cause log analysis using **cut**, **awk**, **grep**, **sed**, **xargs**.

Linux System Administration & Server Management **June 2024 – Present**

- Hardened and maintained Linux servers (Ubuntu, Debian, Kali): SSH hardening, firewall configuration, sudoers/user privilege management.
- Automated tasks with Bash/Python and orchestrated **Docker** containers via SSH.

Career Experience

Penetration Tester | Independent **June 2024 – Present**

- Conducted vulnerability assessments and penetration tests on web applications and network infrastructures.
- Documented technical findings and provided remediation strategies (Hardening).

Founder & Team Lead | Integrated Hawkens (CTF Team) **Apr 2024 – Present**

- Established and led a prominent Bangladeshi CTF team to national recognition, orchestrating team strategy across 100+ competitions.
- Mentored team members on efficient cybersecurity learning methodologies.

Penetration Testing Internship | Tech Hierarchy **Mar 2026**

- Designed office networks (Cisco Packet Tracer), researched real-world incident mitigations, performed network scanning/host discovery/service mapping, and exploited DVWA locally to master web vulnerabilities.

Education

BSc. in Computer Science & Engineering

Rajshahi University of Engineering & Technology, Rajshahi

Skills

Soft Skills:

- Communication Skills, Problem-Solving, Critical Thinking, Teamwork and Collaboration, Adaptability, Continuous Learning, Professionalism, Leadership Skills

Skills & Tools:

- **Programming:** Python, Bash, C, C++, HTML, CSS
- **Security Domains:** Ethical Hacking, VAPT, Web Security, SOC
- **Extra Knowledge:** Steganography, Cryptography, OSINT, Pwn, Digital Forensics, System Administration, Automation
- **Operating Systems:** Linux (Kali, Ubuntu), Windows
- **Networking:** OSI Model, TCP/IP, DNS, HTTP/HTTPS, Subnetting, SYN-ACK, 3-Way Handshake | Nmap, Wireshark, Tshark, NetworkMiner, Netcat, Curl, Wget, OpenSSH, RDP
- **Server Management:** Nginx, Apache, Cloudflare
- **Web Security Tools:** Burp Suite, OWASP Zap, OpenVAS, Nikto, Wpscan, Nuclei, Sublist3r, Arjun, Sqlmap, flask-unsigned, jwt_tool
- **Exploitation Frameworks:** Metasploit, Cobalt Strike, Sliver C2, PowerShell-Empire, Starkiller
- **Reversing:** IDA, Ghidra, GDB, ltrace, strace, objdump, checksec, readelf
- **Cryptography Tools:** Rsactftool, Cyberchef, John The Ripper, Hashcat, Hashid
- **Firewall:** ufw, fail2ban, firewalld
- **Forensics:** Autopsy, Volatility, Photorec, FTK Imager, dd, Regripper, Evtx Dump, Regshot, Registry Explorer, Oletools
- **SIEM & Monitoring:** Splunk, ELK Stack (Kibana), Snort IDS-IPS
- **CLI Log Analysis:** cut, awk, grep, sed, xargs
- **Other:** Git, Docker, Virtualization, Graphic Design, Video Editing

CTF & Achievements

- Participated in over 100+ CTFs (International, National, Inter University & Intra University)
- Solved over 1000+ Challenges in CTFs
- Top 4% player in TryHackMe
- Organized "Integrated Hawkers Initial CTF 2026"
- Obtained many participation certifications.

Professional Certifications

LPT (Master) (Licensed Penetration Tester)

- **Advanced Penetration Testing**
- Active Directory Pentest & Lateral Movement
- Web Exploitation
- Custom Exploit Development & Binary Analysis
- IoT System Exploitation
- Capture The Flag (CTF)

CPENT (Certified Penetration Testing Professional v2)

- **Advanced Penetration Testing**
- Active Directory Pentest & Lateral Movement
- Web Exploitation
- Custom Exploit Development & Binary Analysis
- IoT System Exploitation
- Capture The Flag (CTF)

eJPT (eLearnSecurity Junior Penetration Tester)

- **Penetration Testing**
- Host and Network Penetration Testing, Assessment Methodologies, Host and Networking Auditing, Web Application Penetration Testing

Introduction to Linux (LFS101)

- **Linux System Administration**
- Comprehensive training in Linux philosophy, command-line operations, Bash scripting, and core system administration. Verified ability to navigate, secure and automate tasks within a Linux environment.

Kodekloud Linux - Level 1

- **Linux System Administration**
- Linux history, Command line basics, Filesystem hierarchy, File navigation, File/Directory management, File types, Permissions and ownership, User account management, Package management (YUM/APT/RPM/DPKG), Process management, Text editing, Grep, Basic networking, SSH, SCP, Cronjobs, System services, System boot process, Runlevels.

Projects

Infeagle-Recon

May 2026

- Passive reconnaissance suite: URL harvesting (CommonCrawl, Wayback, VirusTotal), subdomain discovery (crt.sh, URLScan.io, AnubisDB), live-endpoint filtering, parameter extraction, and a bug-bounty findings scanner across 12 categories.

YT-Inferor

May 2026

- Flask + yt-dlp YouTube downloader with Video (MP4) and Audio-only (MP3/M4A/WAV) modes, FFmpeg-aware quality handling and format selection.

Integrated Share

Feb – Mar 2026

- Secure self-hosted LAN file-sharing app: auth, RBAC, upload/preview/rename/delete/trash-restore, token-based and user-to-user sharing, upload filtering (magic-byte checks), login throttling, session hardening, quota enforcement, and SIEM-style activity logging. Group project at RUET.

CVE-2025-55182 React2Shell Async Scanner

Feb 2026

- Production-grade async RCE scanner (Prototype-Pollution → Unauthenticated RCE in React Server Actions) scanning hundreds of targets concurrently with zero false positives via canary-based confirmation.

PDFGuti

Oct 2023

- Google Drive restricted PDF downloader tool.

Mi-PyCrypt

June 2023

- Python source-code obfuscation/compiler tool (Python2 & 3) with single and mixed encryption modes to deter code theft.

GoponFile

May 2023

- Simple, safe, user-friendly file locker written in Python.

Mi-TermBuild

May 2023

- Termux-optimized tool that makes Termux easier and more polished to use.

MiProxy2

Oct 2022 - Apr 2023

- Versatile proxy operation tool.

RansoInferor

Apr 2023

- Simple ransomware demo based on RSA/symmetric cryptography.

MiLocalShare

Nov 2022

- Local file-sharing web app over LAN/Wi-Fi/hotspot, speed dependent on router.

Honors & Awards

Hackers4Humanity Scholarship | EC-Council

Jul 24, 2026

- Selected for the merit-based global cybersecurity scholarship initiative
- Received full sponsorship for advanced practical penetration testing exam

Award of Excellence in Cybersecurity | Dept. of CSE, RUET **Jul 21, 2026**

- Conferred departmental Award of Excellence in Cybersecurity

Phoenix Summit Fellowship 2026 | Flexoptix **June 06, 2026**

- **Selection:** Selected as a Full Fellow for the 5-day international tech summit in Dhaka
- **Program:** Completed 3 days of advanced technical workshops and 2 days of executive summit sessions
- **Grant:** Fully funded sponsorship covering full summit pass, 6 nights accommodation, food, and AC travel

Eid Salami CTF RCSC 2026 **Mar 14, 2026**

- **Rank:** 1st
- **Organized by:** RUET Cyber Security Club
- Solved challenges in Web Exploitation, Crypto, Reverse, Steganography, OSINT, Android, AI.
- Awarded with Prize Money.

RUET Intra CTF 2025 **Dec 04, 2025**

- **Rank:** 3rd
- **Category:** Intra University
- Solved challenges in Web Exploitation, Cryptography, Reverse Engineering, Pwn, Steganography, OSINT, Digital Forensics.
- Honored with a commemorative crest.

StealthFlags CUET CTF 2025 **Nov 14, 2025**

- **Rank:** 2nd
- **Category:** National
- Solved challenges in Web, Crypto, Reverse, Pwn, Steganography, OSINT, Forensics.
- Awarded with Prize Money.

CRHC CTF 2025 **Aug 29, 2025**

- **Category:** International
- My writeups on their CTF challenges were selected the best among all.
- Awarded with Parrot CTFs Premium voucher for 3 months.

Eid Salami CTF RCSC 2025 **Mar 30, 2025**

- **Rank:** 1st
- **Organized by:** RUET Cyber Security Club
- Solved challenges in Web Exploitation, Crypto, Reverse, Pwn, Steganography, OSINT, Forensics.
- Awarded with Prize Money.
